## PROFILE

Computer Engineering Graduate (2024) with expertise in backend development, specializing in Java and the MERN stack. Proficient in building efficient and scalable applications, with a passion for solving complex technical challenges. Seeking to leverage my skills and knowledge in backend development to contribute to innovative, high-impact projects within a forward-thinking team.

---

## EDUCATION

**Ajeenkya DY Patil School Of Engineering**

B.E In Computer Engineering

**April 2020 - 2024**

**SSPM Day School & Junior College**

H.S.C In Science

**March 2018 - 2020**

---

## STRENGTH & EXPERTISE

- Java, JavaScript, Python
- Node.js, SpringBoot, MySql, MongoDB, Relational DBs
- Git, Maven
- Data Structure and Algorithm, SDLC

---

## PROFESSIONAL EXPERIENCE

**Let's Grow More**

**Mar 2023 - April 2023**

**Web Developer**

During my one-month internship at LetsGrowMore, I worked on four distinct web projects, showcasing my skills in various web development technologies:

- To-Do List Application: Developed a dynamic To-Do List using HTML, CSS, and JavaScript, incorporating interactive features for an enhanced user experience.
- Registration Form: Designed and implemented a responsive Registration Form with HTML, CSS, and JavaScript, focusing on user-friendly interfaces and form validation.
- Calculator Application: Created a functional calculator application utilizing HTML, CSS, and JavaScript, featuring mathematical operations and an intuitive user interface.
- React Web Application: Built a modern web application using create-react-app, applying component-based architecture, state management, and responsive design principles.

---

## PERSONAL PROJECT

**Travel Company Website**

[GitHub](#) [Live](#)

- TRAVELS is a modern web application built with Bootstrap and Node.js, designed to offer seamless booking experiences and comprehensive travel solutions for customers seeking memorable journeys

### **Secure File App**

[GitHub](#) [Live](#)

- This is an software that stores and shares files securely using hybrid cryptography with multiparty encryption.
- Java, Springboot

### **AI-powered ChatBot**

[GitHub](#) [Live](#)

- The AI-powered chatbot offers a range of functionalities, including the ability to answer frequently asked questions, provide customersupport, and retrieve specific information based on user input.
  - Javascript
- 

## **CERTIFICATION & AWARDS**

- **SQF olympiad Mathematics**
  - **Maths Talent Search 2017-2018**
  - **Maths Talent Search 2016-2017**
  - **Web Development Course By Internshala**
  - **Cyber Security (Web Hacking) By E & ICT Academy, IIT Kanpur**
  - **Microsoft Certified: Azure Data Fundamentals By Microsoft**
  - **Python & Flask Framework Course By Udemy**
  - **Core Python Course By Udemy**
-
